Resolution

Protest against bureaucratic obstacles and refusal of conference visas for the 3rd International Automotive Workers' Conference

We, the delegates' assembly and the closing plenary session of the 3rd International Automotive Workers' Conference in Pune, India, protest against the bureaucratic obstacles and refusal of several visas for the conference.

Participation was associated with high bureaucratic hurdles for everyone. Many conference participants had to apply for visas several times, pay twice, were questioned specifically upon entry, or were unable to leave their countries at all, as was the case with Turkey. Due to these obstacles, the delegation from the Democratic Republic of Congo was only able to arrive on Saturday, November 22, 2025.

The refusal of visas to Gabriele Fechtner, chairwoman of the Marxist-Leninist Party of Germany (MLPD), and the bureaucratic obstruction of Hatem Laoumi, ICOR representative from Tunisia, by the Indian Ministry of the Interior were clearly motivated by anti-communism! Gabriele and Hatem are both closely connected to the workers and stand for the unity of the workers' and trade union movement with the revolutionary movement.

But that will not stop us workers from fighting for our interests. We delegates have discussed this and passed resolutions. The conference was a further unification and fraternization. We stand in solidarity with all our colleagues who were unable to attend our conference due to this obstruction by the Indian and other governments.

Warm militant greetings

(Unanimously adopted by the delegates' assembly and the closing plenary of the 3rd International Automotive Workers' Conference on November 24, 2025)
