Resolution

Solidarity with injured and fired GM workers of Colombia (ASOTRECOL) - to the finish line!

Whereas the ASOTRECOL members have engaged in a heroic tent encampment at the U.S. Embassy demanding a just resolution from the corporation that took their livelihoods and threw them to the curb,

Whereas their fight has been sustained by a network of workers' and social justice organizations in the USA and around the world, providing material support and sustaining a visible presence of their struggle,

Whereas the International Automotive Workers Coordination was one of the early militant supporters of ASOTRECOL, issuing international letters of solidarity and hosting its president, Jorge Parra at two conferences,

Whereas a new Unite Auto Worker (UAW) leadership has taken up ASOTRECOL's demands and presented them to GM CEO Mary Barra, followed by an international delegation visiting the encampment, thereby expressing concretely their solidarity and resolve,

Therefore, be it resolved that

The International Automotive Workers Coordination will redouble its efforts to support ASOTRECOL by making public declarations of solidarity and giving material aid as part of a united front until a just resolution is achieved.

An injury to one as an injury to all. Workers of the world, unite!

(Unanimously adopted by the closing plenary of the 3rd International Automotive Workers' Conference on November 24, 2025)
